To Whom It May Concern:

Please consider this my highest recommendation for Debra Simmons and Senior Transitions. I have worked with this individual and her company for over twelve to fifteen years. We currently have and have had many mutual clients and I have been able to observe the work personally and professionally. Ms. Simmons has also helped with issues relating to my father before he died in 2005 and is now helping with my 97 year old father-in-law's situation.

Ms. Simmons and her company provide comprehensive care management services for the elderly, disabled and their families. I have observed most if not all of these activities, including without limitation, case and care management, incapacity evaluations for guardianship cases, evaluations for Medicaid and public assistance, services as health care surrogate, assistance with medical, pharmacological, mental health decisions, end of life issues, aging in place, transition and placement in various residential settings, etc.

In each instance Ms. Simmons and her company have exceeded my expectations. Our very diverse elderly and disabled clients are almost always vulnerable, under stress and often difficult. It is rare for me to see the professionalism, compassion and caring that I see in this individual and her company.

Any organization will be well served to have Ms. Simmons and her company as members. I have no doubt that her contributions will be valuable. If I can add anything further or answer any questions I am happy to do so.

Sincerely,

Lauchlin T. Waldoch
